Place speaker in Bluetooth Pairing mode

- * Switch the power button to ON to turn on the speaker.
- *Wait 2-3 seconds until the LED light flashes blue. The speaker is now ready to be paired with another device
- Note: The speaker will remain in pairing mode for 1 minute. To place the unit in pairing mode again, simply turn the speaker off and then on again using the switch on the back of the unit.

Pairing a Bluetooth device with your speaker

Your wireless speaker can stream audio from any Bluetooth-enabled device within 10m (33 feet).

Simply follow the steps below:

- Turn the speaker on to place it in Pairing mode.
- Set your phone, tablet or other device to search for Bluetooth devices (i.e. the speaker).
- When the speaker shows "MINIBAR" as an option, select it from the list.
- When the pairing process is complete, the LED will light a steady blue.

Taking calls on your speaker (when connected to a phone) -

If you are listening to music from your phone, the music will automatically pause. -Press "M/C" to pick up the call.

- During a call: Press "M/C" again to hang up the call.
- Press "M/\in" two times quickly to re-dial the call
- You may also answer/end calls by using your phone as you would normally.

Controlling music playback when connected via Bluetooth -

Once your Bluetooth audio source is successfully paired to your Bluetooth speaker. any music played will automatically be heard through your speaker.

- Press ">" to play/pause the audio.
- -Press and hold the button to lower the volume level of the unit.

Tap this button to go to the next track in a playlist.

-Press and hold the # button to raise the volume level of the unit. Tap this button to go to the last track in a playlist

AUX function of the speaker

- Turn on the speaker.
- Plug the 3.5mm auxiliary cable (included) in to the Aux port of the speaker, and the other end of the cable connects to the audio device.
- Select your favorite song as the source device and play.
- Long press + to increase the volume and Long press to decrease the volume.

Note: Functions like skip backward, skip forward etc. can be only controlled through source devices, while playing music in Auxiliary mode.
